

ABOUT MOIRÉ

With **Moiré**, LD presents a collection where structure meets shimmer in a sensory dialogue. Deep winter tones like chocolate brown, midnight blue, graphite grey, and vivid fuchsia are softened by a subtle metallic sheen that shifts and dances with every movement.

Inspired by the moiré effect in textiles – a rippling visual texture that seems to move as you do – each piece explores the tension between rough and smooth, matte and glossy, strength and softness.

This collection is made for those who embrace contrast: a hint of romance, a dose of boldness, and always a sense of quiet refinement. Moiré is not a trend – it's a feeling.

A whisper of luxury, rooted in material, form, and intention.

Whether you're drawn to a subtle accent or a statement piece, Moiré invites you to touch, to wear, to reveal.
